

#### GMAT Overview:

The Graduate Management Admission Test (GMAT) is a standardized management test widely used in the selection process for more than 7,000 business and management programs across 2,300 universities and organizations in 114 countries. Administered by the Graduate Management Admission Council (GMAC®), the GMAT is a computer-adaptive exam and serves as a criterion for admission into various management programs, including MBA, Master of Accountancy, and Master of Finance.

#### 1. GMAT Eligibility:

- Only accredited, degree-granting institutions offering graduate-level programs in business and management are eligible to receive GMAT scores.

#### 2. Test Validity:

- A GMAT score is valid for up to five years, providing flexibility for candidates to use their scores for admission applications.

#### 3. Test Centers and Availability:

- The GMAT is held year-round at over 600 test centers worldwide.
- Aspirants can choose a test date and center that suits their convenience.

#### 4. Admissions Decision:

- The GMAT exam is one of the factors considered in the admissions decision, and each program may have its own specific criteria.

#### 5. Score Reporting:

- Official GMAT results are sent to selected programs and institutions within 20 days of the exam date.
- Pearson Vue sends a notification email when scores become reportable, allowing candidates to access and download their score reports from their GMAC account.

#### GMAT Exam Pattern:

1. Analytical Writing Assessment (AWA):
  - Assesses the ability to analyze an argument and communicate ideas effectively in written form.
  - Involves analyzing a given argument and writing a critique.
2. Integrated Reasoning (IR):
  - Evaluates the ability to interpret and analyze complex data from multiple sources.
  - Includes questions related to graphics interpretation, table analysis, multi-source reasoning, and two-part analysis.
3. Quantitative Section:
  - Assesses mathematical and problem-solving skills.
  - Includes data sufficiency and problem-solving questions.
4. Verbal Section:
  - Evaluates reading comprehension, critical reasoning, and sentence correction skills.
  - Includes questions on passages, argument analysis, and sentence correction.
5. Exam Duration and Total Score:
  - The total duration of the GMAT exam is three and a half hours.
  - The total score range is between 200-800, combining scores from the Quantitative and Verbal sections.

#### Preparation Tips for GMAT:

1. Understand Exam Format:
  - Familiarize yourself with the format and question types for each section of the GMAT.
  - Understand the adaptive nature of the exam.
2. Practice Regularly:
  - Utilize official GMAT practice materials and resources.
  - Practice under timed conditions to improve time management skills.
3. Focus on Weak Areas:
  - Identify and focus on your weaker areas through practice tests.
  - Allocate more time to improving skills in sections where you face challenges.
4. Time Management:
  - Practice time management to ensure completion of each section within the allotted time.
  - Develop strategies to prioritize questions.
5. Seek Additional Resources:
  - Use study guides, online courses, and additional resources for comprehensive preparation.
  - Consider joining a GMAT preparation course if needed.
6. Simulate Exam Conditions:
  - Take full-length practice tests to simulate exam conditions.
  - Build endurance and mental stamina for the three and a half-hour exam.

7. Review Mistakes:

- After practice sessions, thoroughly review incorrect answers.
- Understand the reasoning behind each correct answer to improve understanding.

8. Stay Informed:

- Stay updated on any changes or updates to the GMAT.
- Visit the official GMAT website for the latest information and resources.

Remember that success in the GMAT is not only about knowledge but also about strategy and effective time management. Regular and focused practice, along with a comprehensive understanding of the exam format, will contribute to your success on test day.

| Section   | Components                    | Topics   | Score     |
|-----------|-------------------------------|--|-----------|

| Section 2 | Integrated Reasoning          | Multi-Source Reasoning<br>Graphics Interpretation<br>Two-Part Analysis<br>Table Analysis |           |
| Section 3 | Quantitative Abilities        | Data Sufficiency<br>Problem Solving  |           |
| Section 4 | Verbal                        | Reading Comprehension<br>Critical Reasoning<br>Sentence Correction                       |           |

GMAT Exam Syllabus:

The GMAT (Graduate Management Admission Test) syllabus covers a diverse range of topics across four sections, each designed to assess different skills in a candidate. The sections are:

1. Analytical Writing Assessment (AWA):

- Objective: Evaluate the candidate's ability to critically analyze an argument and express ideas effectively in written form.
- Task: Analyze an argument and write a critique within a specific time frame.

2. Integrated Reasoning (IR):

- Objective: Assess the ability to interpret and analyze complex data from multiple sources and make informed decisions.
- Question Types:
  - Graphics Interpretation
  - Table Analysis
  - Multi-Source Reasoning
  - Two-Part Analysis

3. Quantitative Section:

- Objective: Evaluate mathematical and problem-solving skills.
- Question Types:
  - Data Sufficiency
  - Problem Solving

4. Verbal Section:

- Objective: Assess reading comprehension, critical reasoning, and sentence correction skills.
- Question Types:
  - Reading Comprehension
  - Critical Reasoning
  - Sentence Correction

Changes in GMAT Exam Duration:

- Change Implemented: GMAC reduced the GMAT exam duration by 30 minutes.
- Effective Date: The alteration was first implemented in the GMAT exam on April 16, 2018.
- Duration: The GMAT exam is now three and a half hours instead of four hours.
- Content and Scoring: The content of the exam and the time allotted per question remain unchanged, and the exam is scored based on the same parameters.

GMAT Exam Scoring:

- The GMAT is scored on a scale of 200-800.
- Scores are based on performance in the Quantitative and Verbal sections.
- The AWA and IR sections are scored separately, and the scores for these sections do not contribute to the total GMAT score.

The GMAT syllabus is structured to evaluate a candidate's critical thinking abilities, problem-solving skills, and proficiency in written and verbal communication. The recent reduction in exam duration aims to enhance the overall testing experience without altering the content or scoring parameters of the GMAT exam.
